ABOUT ME

I'm Abdi Dabala, an Agentic AI Developer, and Software Engineer. I work on AI projects, chatbots, and Agentic AI development while continuously learning advanced Python, AI orchestration, and software engineering. I love collaborating on open-source tools, exploring AI pipelines, and building impactful projects that leverage cutting-edge technologies. .

EDUCATION

Adama Science and Technology University – B.Sc. in Software Engineering

Expected Graduation: 2028

- Relevant Coursework: Database Systems, Software Engineering, Data Structures & Algorithms, Artificial Intelligence, Operating Systems, Website Development.
- Academic Projects: Logistics & Supply Chain Database, EduConnect Communication Portal.

PROJECTS

RAG Chatbot (AI System)

- Built a Retrieval-Augmented Generation (RAG) chatbot integrating LLMs with vector databases for intelligent responses.
- Deployed prototype with knowledge retrieval for user-specific queries.

SKILLS

Programming Languages

- Python, JavaScript

AI/ML & Data Science

- Agentic AI, RAG
- NumPy, pandas, matplotlib, seaborn

Database

- MySQL

Web Development

- HTML, CSS

Tools & Systems

- Git, Linux, VS Code, Pydantic, LangChain, LangGraph.

Soft Skills

- Leadership, Teamwork, Communication, Problem solving, Creative thinking, Presentation skills, Motivation
