SKILLS

- **Programming Languages:** Python, Java, C++, JavaScript
- **AI| ML and Data Science:** Agentic AI, RAG
- **Web Development:** HTML, CSS
- **Tools:** Git/Github, Linux
- **Soft Skills:** Leadership, Teamwork, Communication, Presentation Skills, Creative thinking

PROJECTS

RAG Chatbot

- Built a Retrieval-Augmented Generation (RAG) chatbot integrating LLMs with vector databases for intelligent responses.
- Deployed prototype with knowledge retrieval for user-specific queries.

Web Search AI Agent

- This project is an AI-powered web search agent that combines Tavily search with Google Gemini LLM to provide summarized, accurate answers to user queries.

EDUCATION

Adama Science and Technology University,

09/2023 – Present | Adama, Ethiopia

BSc in Software Engineering 

- *Relevant Coursework:* Data Structures & Algorithms, Database Systems, Data Communication & Networks, Object Oriented Programming,

Data Science Boot camp

04/2025 – 05/2025 | Adama, Ethiopia

CSE ASTU Data Science Boot camp

- Data Manipulation and Analysis | Data Visualization
- Data Preprocessing and Feature Engineering
- Machine Learning and Advanced Modeling
- Feature Selection

Artificial Intelligence

Agentic AI Development (In Progress)

LLM Engineering and Deployment (In Progress)

EXTRACURRICULAR

Problem Solving

01/2025 – Present | Adama, Ethiopia

- Solved **125+ LeetCode problems**, improving algorithmic efficiency and problem-solving skills.
- Solved **10+ Codeforces problems**, gaining experience in competitive coding under time constraints.
- Strengthened proficiency in **data structures, algorithms, and competitive coding strategies**.

Languages

- English
