Summary

Agentic AI Developer, Software Engineer, and Frontend Developer with experience in AI projects, chatbots, and Agentic AI systems. Skilled in Python, AI orchestration, and modern frontend technologies (HTML, CSS, JavaScript), building scalable and interactive applications. Passionate about open-source collaboration, AI pipelines, and delivering innovative, impactful projects.

SKILLS

- **Programming Languages:** Python, Java, C++, JavaScript | **AI | ML and Data Science:** Agentic AI, RAG, Prompt Engineering, Machine Learning, Data Preprocessing, Feature Engineering | **Web Development:** HTML, CSS, JavaScript | **Tools:** Git/Github, Linux, VS Code | **Soft Skills:** Teamwork, Leadership, Communication, Presentation Skills, Creativity

PROJECTS

RAG Chatbot

- Built a Retrieval-Augmented Generation (RAG) chatbot integrating LLMs with vector databases for intelligent responses.
- Implemented custom embeddings, document chunking, and query routing.
- Deployed prototype with knowledge retrieval for user-specific queries.

Web Search AI Agent

- AI-powered web search agent that combines Python, Tavily search with Google Gemini LLM to provide summarized, accurate answers to user queries.
- Implemented result ranking, filtering, and final answer generation.
- Designed tool modules for multi-step query reasoning.

EDUCATION

Adama Science and Technology University,

09/2023 – Present | Adama, Ethiopia

BSc in Software Engineering

- *Relevant Coursework:* Data Structures & Algorithms, Database Systems, Data Communication & Networks, Object Oriented Programming,

Data Science

04/2025 – 05/2025 | Adama, Ethiopia

CSE ASTU Data Science Bootcamp

- Data Manipulation and Analysis | Data Visualization
- Data Preprocessing and Feature Engineering
- Machine Learning and Advanced Modeling
- Feature Selection and Model Optimization

Artificial Intelligence

01/2025 – Present | Adama, Ethiopia

Agentic AI Development — In Progress

LLM Engineering and Deployment — In Progress

EXTRACURRICULAR

Competitive Programming

01/2025 – Present | Adama, Ethiopia

- Solved **125+ LeetCode problems**, improving algorithmic efficiency and problem-solving skills.
- Solved **10+ Codeforces problems**, gaining experience in competitive coding under time constraints.
- Strengthened proficiency in **data structures, algorithms, and competitive coding strategies**.
